

you couldn't be in a better shape

dateLINE boats

In 10 short years, Dateline have built quite a reputation for high quality, high performance sportsboats.

Our intensively developed and well-proven hull designs have won wide acclaim for their outstanding speed and handling qualities.

But performance alone doesn't make a Dateline sportsboat.

We pay particular attention to safety, quality, comfort and durability too.

As craftsman boatbuilders, we use only the finest quality materials, and lay all GRP by hand, to ensure that our boats give many years of pleasure and satisfaction.

The range includes many refinements, plus the introduction of the superb new Dateline Bikini Sterndrive. Adding extra performance, style and fuel-saving economy to the Dateline fleet.

On completion every boat is thoroughly checked and tested, then fully guaranteed for 24 months.

So whether you're looking for a first class ski boat, a serious sport boat, or a boat that's just a sheer pleasure to own, take a close look at the Dateline range. They're built to win you over.

Now with 2 Years Warranty

dateline warranty

The Builder warrants that in the manufacture of each boat only the best workmanship and materials have been employed and if any fault due to bad workmanship or material is proved and the boat is returned by the original purchaser within 24 months of the sale then the Builder will at its own cost and at its own option repair or replace the faulty article PROVIDED ALWAYS that the boat has not been altered, subject to misuse, negligence or accident or used for racing or commercial purposes.

Whilst every care is taken to ensure the accuracy of the descriptions and specifications in this brochure, due to constant development the manufacturers reserve the right to make alterations without notice.

date*line* pago

The Pago is a refined version of the highly economical and fun-loving Suva.

The spacious cockpit now offers even more space, thanks to a complete re-styling of the wrap-around cockpit faring. Up front, we've put a couple of Date*line* designed GT seats, plus a stylish tinted windscreen.

Other features we simply couldn't improve on, short of throwing the highly competitive price right overboard.

Namely, the full width padded rear bench seat that comfortably takes 3 large adults, the precise sports wheel and let's not forget the outstanding speed and verve that all Date*line* hulls are renowned for.

For sheer value for money in the speed and fun stakes, nothing can match the Pago.

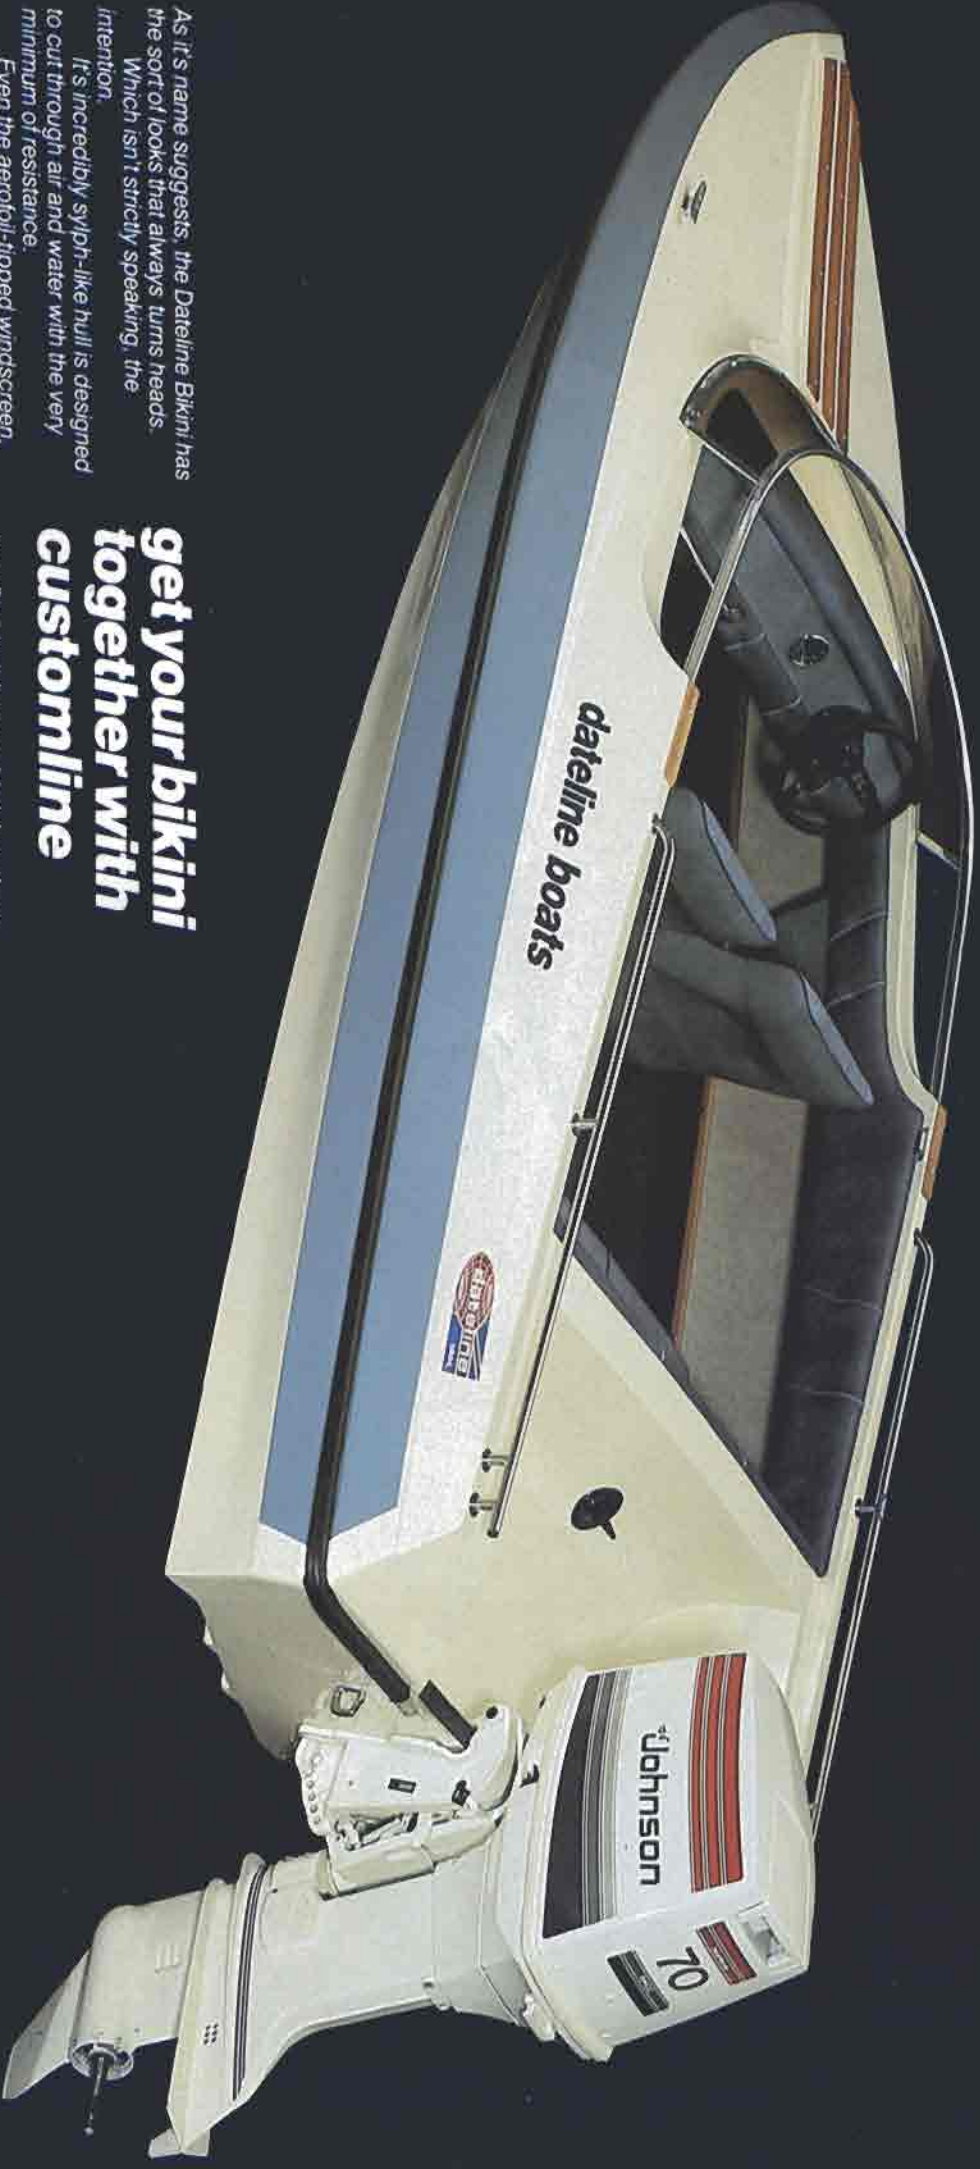

specification

Length 13'2" 4.0m
Beam 6'1" 1.8m
Weight 500lb 227kg
Power range up to 60hp.

Optional Extras Speedometer, Overall Cover

colour trim

Ivory/Red
Ivory/Red
Twilight Blue
Cinnamon
Burnt Amber

As it's name suggests, the Dateline Bikini has the sort of looks that always turns heads.

Which isn't strictly speaking, the intention.

It's incredibly slyph-like hull is designed to cut through air and water with the very minimum of resistance.

Even the aerofoil-tipped windscreen, stylish and racy though it appears, helps to urge that extra ounce of speed.

Resulting in a performance that can only be described in one word - exhilarating.

Tempered slightly, we admit, by the well-upholstered bucket seats, the padded dashboard, the marine carpeting, and the impeccable handling and stability.

Other quality features that come as standard are the stainless steel grab handles and side rails, (extras on the kit) quality alloy cleats, and the thoughtful step pads and ski storage.

The beautiful BIKINI STEERDRIVE with no less than 8 fuel-saving, power-packing engine options, gives you even greater performance, economy and style as you skim effortlessly over the water. Turning heads as usual.

get your bikini together with customline

Few Boatbuilders could claim to have mastered the art of marrying boats and engines quite as successfully as Dateline. But being perfectionists, and well accustomed to working closely with engine manufacturers, we've excelled even ourselves.

With 4 distinctive finishes that match up to your Yamaha, Mercury, Johnson or Evinrude superbly.

Available on the Bikini Outboard only, these stylish liveries would make even a sterndrive sit up and take notice.

dateline bounty

For skiers and sports enthusiasts alike, the Bounty offers more style, more comfort and more sheer satisfaction than any other medium priced boat on the water.

It has that surprising turn of speed that you normally associate with more powerful, less economical boats, plus the taut, unshakeable handling that's the hallmark of the proven Dateline hull design.

There's a choice of outboard or sterndrive, each providing a luxurious five-seater, well upholstered cockpit with full instrumentation on the sterndrive, and an aerobol-tipped tinted windshield.

Plus the reversible, adjustable front seats.

The Sterndrive's well-padded engine hatches make for good sunbathing when closed, and easy engine access when open.

The remaining specifications are what you'd expect on a Dateline quality boat - nothing but the best. Which naturally includes the price.

specification

Length	16'6"	5.0m

bounty customline~ the ultimate harmony

For performance, comfort and economy, you'd be hard pressed to find a better partner for your Evinrude, Johnson, Mercury or Yamaha outboard than a Dateline Bounty.

But where style's concerned, there's one relatively inexpensive improvement you can make.

Specify a new Customline livery.

And make your favourite outboard look the way it behaves - a natural extension of your boat.

And if you happen to be a serious Mercury Sterndrive man, why not show it?

The Bounty Sterndrive is now available in the classy Mercury colours.
